Field Session**

CONTINUING EDUCATION

6 contact hours.
6 credits for designers/installers

WORKSHOP DESCRIPTION

This workshop will provide instruction in the long awaited Version 4: Field Indicators for Identifying Hydric Soils in New England. The morning lecture will give an overview of the basics of the new Version 4 Hydric Soil Indicators and an explanation of why the new indicators were necessary.

Following the morning lecture, small groups will be assembled and led into the field. Each workshop participant will review the new indicators in the field at various stations that will be manned by seasoned NH Certified Soil Scientists.

This workshop is intended for all natural resource professionals, especially those that are performing wetlands delineations in the field.

INSTRUCTORS

Mark Jacobs (private consultant)
Jim Gove (Gove Environmental Services)
Greg Howard (North County Soil Services)
James Long (GZA GeoEnvironmental)
Tom Peragallo (LEC Environmental Consultants)
Ray Lobdell (private consultant)
Joe Homer (retired NRCS State Soil Scientist)
